FIRE DANGER RATING	WHAT YOU SHOULD DO
 <b>CATASTROPHIC</b>	<p>For your survival, leaving early is the only option.</p> <p>Leave bush fire prone areas the night before or early in the day – do not just wait and see what happens.</p> <p>Make a decision about when you will leave, where you will go, how you will get there and when you will return.</p> <p>Homes are not designed to withstand fires in catastrophic conditions so you should leave early.</p>
<b>EXTREME</b>	<p>Leaving early is the safest option for your survival.</p> <p>If you are not prepared to the highest level, leave early in the day.</p> <p>Only consider staying if you are prepared to the highest level – such as your home is specially designed, constructed or modified, and situated to withstand a fire, you are well prepared and can actively defend it if a fire starts.</p>
<b>SEVERE</b>	<p>Leaving early is the safest option for your survival.</p> <p>Well prepared homes that are actively defended can provide safety – but only stay if you are physically and mentally prepared to defend in these conditions.</p> <p>If you're not prepared, leave early in the day.</p>
<b>VERY HIGH</b>	<p>Review your <u><a href="#">bush fire survival plan</a></u> with your family. Keep yourself informed and monitor conditions. Be ready to act if necessary.</p>
<b>HIGH</b>	
<b>LOW MODERATE</b>

One day Dusty the koala woke up before his mum, as it was a warm sunny day and Dusty was an adventurous young koala so he decided to go and discover new places in the bush.

He climbed down from his tree and started out on his big adventure .

As he was walking, he heard a voice .

"Hello, you're a young joey to be alone in the bush, my name is Eddy and I am an echidna".

He looked down and saw an animal covered in spikes.

"Hi my name is Dusty, because it's such a beautiful day I decided to go for a wander and explore the bush".

Eddie replied,

"Okay have fun, but be careful in the bush, it can be a dangerous place ." Dusty laughed,

"I can handle it, mum says I am a big boy now".
